

Cephalopods

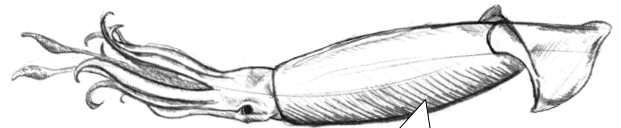

The Jet Set

		Defining characteristics
KINGDOM:		Multi-cellular, mobile (at some point in life cycle), can't produce their own food, no rigid cell walls
PHYLUM:		Soft-bodied, bilateral symmetry, muscular foot, mantle, siphon (Most have shells, radula)
CLASS:	Cephalopods!	

Record your notes about the four main types of cephalopods:

Octopus

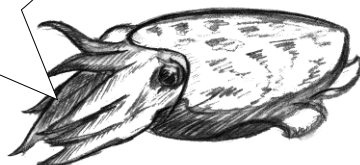

Squid

Cuttlefish

Nautilus

Label the parts of the squid as we discover them:
